Define Genx?

Mark,

It's a little complicated, but you're right, The HFPO-DA ammonium salt is one of the compounds that is GenX – the process. As I understand it, the free acid (HFPO-DA) in the figure below is another part of the what is considered "GenX".

The salt and the acid both become the same anionic species in most aqueous environmental media – groundwater, surface water, and blood.

This is the blue section of the PowerPoint that Mark S. made below:

The "common analyte" (as Mark describes it) is what is measured when we use an LC/MS to do analysis. All water data you see on GenX (HFPO-DA) are this compound in the blue section above. So it really doesn't matter what you start with – the salt or the acid – it all becomes the same thing in water and for an analysis.

Please give me a call at 919-541-0551 if you would like to talk about this sometime.

Thank you,

Andy

This group filed a Notice of Citizen Suit 60 days ago and now they are filing the complaint. In paragraph 114 it says: HFPO Dimer Acid Ammonium Salt (CAS 13252-13-6/P-08-508)) readily turns to GenX (CAS 62037-80-3/P-08-509) in the presence of water.

Is that an accurate statement? Does it even make sense? It seems like it is saying GenX converts to GenX in water. I've been under the belief that HFPO has to be processed to HFPO Dimer Acid Flouride to then convert (hydrolyze) to GenX (HFPO-Dimer Acid Ammonium Salt) in water.

I'm trying to understand what they're trying to say.

Thanks,

Mark

Mark Garvey

Hello all — a TSCA & CWA citizen's suit has been filed against the Chemours facility in NC. We've not read it yet — but wanted to pass it on.

Thanks for being alert. Please ask Josh Grimes or Saundi to see if the complaint is available on Pacer.

Marlene — please let Mark Garvey know.

I'll forward to OGC.

Good morning,

I'm not sure if you all have seen this yet. It appears as though Cape Fear River Watch has filed a lawsuit against Chemours in the Eastern District of North Carolina on Wednesday alleging violations of the CWA and TSCA. I haven't read the complaint yet, but SELC's website (below) includes a link to the document.
